Release Notes

Product	NXU Lite
Version	7.9.1.0038
Introduction	Official release
Hardware Compatibility	NA
Operating Systems	NA
Compatibility List	NA
Change Log	1. Upgrade IPCam patch to support AVer new IPCam: FB2026.
Known Issues	1. H.264 compression needs more CPU resource and will reduce the FPS per channel. 2. Support 80 mega pixels resolution for all IP camera channels connected to one system. This feature is only available on <u>Windows 7 64bit OS, 4GB RAM, 32MB cache HDD</u> environment. 3. Up to 42 mega pixels resolution in total for all IP camera channels can be connected to one system. 4. Didn't support overlay function in Window 7. 5. The first 10 seconds of each hour will be recorded with the always recording status. 6. Do not Support MXPEG codec in AVer's mobile apps. 7. It is not recommend to using KVM device on NXU Lite system. 8. DVR preview screen only can be set at primary monitor when enable dual monitor extend mode.
Others	NA

Release Notes

Product	NXU Lite
Version	7.9.1.0037
Introduction	Official release
Hardware Compatibility	NA
Operating Systems	NA
Compatibility List	NA
