VCPlayer

Easily playback on PCs and notebooks, and convert files to .mp4 and .mov

View and manipulate recorded conferences with the latest version of this specially designed video playback software. Watch video files recorded using AVer's exclusive one-touch recording feature and even change the layout during playback to catch details you might have otherwise missed. If you need to view the video using another media player, just convert the video from its original format to the more widely used .mov or .mp4 format using VCPlayer's easy conversion tool.
