

Case Study

“AVerPen has made class sessions more interactive and responsive”

Modern School, Barakhamba Road, New Delhi

Modern School is synonymous with quality education and is a pioneer to introducing all-round development to foster an all-round growth in its wards. It is the first private school in India, established in year 1920. Modern School offers curriculum from grade 6-12 with a vision for par excellence that provides a combination of traditional Indian educational system and modern educational techniques and is often described as the most famous private school in India.

“Teacher Pen is an amazing tool in hand to control my student’s activities and yet give them freedom to express their creativity”

Modern School has been the pioneer in adopting new technologies in education in order to groom its pupils in an effective and creative classroom learning environment. Mr. Gautam Sarkar (Head of Computer Department, Modern School) is familiar with AVerMedia’s visualizer and has been quite instrumental in implementing AVerPen application in classroom teachings which has significantly improved students’ in class performance and participation. He enjoys using AVerPen, as it comes with additional features of IWB, student voting system, wireless presenter and wireless slate, all of which enhance Mr. Sarkar’s classroom presentation.

Case Study

“AVerPen brought creative learning in students’ hands while the teacher leads them through lesson and demonstrations”

-Mr. Sarkar, Head of Computer Department, Modern School

It has become an essential classroom teaching tool as students and teachers can simultaneously interact with lesson material to enhance information understanding and retention and conduct instant result assessment.

AVerPen has brought valuable benefits to Modern School classroom teachings. It has expanded the capabilities and applications of existing interactive tools like interactive whiteboard and visualizer in classrooms and teacher’s instruction is no longer confined to a limited group of students. With AVerPen, teachers are able to go through lesson materials from anywhere in a classroom while pupil, as individuals or in groups, can simultaneously interact with each other. This has made students to remain attentive in class and to listen to teacher’s instructions more carefully.

“It will enrich classroom teaching, fun teaching, creativity and collaborative learning among students.”

Training

Modern School organized inter-departmental training program for teachers and chose the unique and innovative way of evaluating teachers’ feedbacks. Teachers were divided into groups and asked to answer questions using AVerPen’s group response feature. It was a fun activity and teachers found AVerPen quite a handy tool to use in class. Even some less confident teachers, who were not familiar with IT tools, could not resist but wanted to use AVerPen for their classes.

Inter-School Quiz Competitions

From time to time, Modern School conducts inter-school quizzes, allowing students to input answers to questions and immediately displaying results through AVer+ software. Evaluation of student performance can be immediately accomplished and discussed.

Student response/group response :

AVerPen includes an answer selection keypad, allowing students to input answers to questions and then immediately display the results through the innovative AVer+ software. The result assessment can be accomplished and discussed on the spot. The student response system is an excellent way to engage students in promoting high-level thinking, discussion, and collaborative learning.

Easy Annotation with AVer+ software :

Comprehensible and easy to use annotation tools allow users to highlight and draw freehand lines, straight lines, add text, shapes and more. A variety of colors and sizes can also be chosen within each annotation function. Annotation is made simple whether used alone, with AVerPen, a visualizer or interactive whiteboard. Teaching aids such as protractors, rulers, building blocks and other handy tools are also included for measuring and manipulating.

Case Study

“AVerPen has made class sessions more interactive and responsive.”

-Mr. Sarkar, Head of Computer Department, Modern School

AVerPen, being the plug and play device, is quite easy to use, not to worry about being late in completing class sessions or missing out class materials. This allows both teachers and students to interact with lesson material at the same time, rather than wasting precious time by taking turns or passing around interactive tools. “AVerPen has made class sessions more interactive and responsive”, commented Mr. Sarkar.
