## — User Manual —

TR333V2 / TR323(N)V2 / TR313V2 / TR311HWW2 /  
PTC330UV2 / PTC320U(N)V2 / PTC310UV2 / PTC310HWW2

## Warning

- Hold the bottom of the camera with both hands to carry the camera. Whether the camera is connected to power or not, do not grab any part of the lens or the lens holder to carry the camera or adjust pan and tilt.
- Do not drop the camera or subject it to physical shock.
- Ensure the power supply voltage is correct before using the camera.
- Do not place the camera where the cord can be stepped on as this may result in fraying or damage to the lead or the plug.
- To reduce the risk of fire or electric shock, do not expose the camera to rain or moisture. Warranty will be voided if any unauthorized modifications are done to the camera.

### Federal Communications Commission

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radiofrequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Class A digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

## **Warning**

This is a class A product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

## **Caution**

Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

## **PoE**

The PoE+ port is connected only to PoE networks without routing to the outside plant.

## **PSTI Statement of Compliance**

Please refer to the following website: <https://www.aver.com/product-security-advisory>

## **VCCI-A**

# Wall Mount

# Remote Control

Your device may come with one of the following remote controls.

Name	Function
1. POWER	Enter Standby Mode or wake up. <b>Note:</b> Waking up may take a while.
2. CAMERA SELECT	No selection is required to operate the camera by default. <ul style="list-style-type: none"> <li>Both camera and remote control have been set to 1 at the factory.</li> <li>To assign a number to the camera, go to <b>System &gt; Camera Selector</b> in the OSD menu.</li> </ul>
3. NUMBER BUTTONS	Press <b>Number button (0-9)</b> to load defined preset 0-9.
4. PRESET/RESET	<ul style="list-style-type: none"> <li>To save a preset, press and hold <b>PRESET</b>, then press a <b>Number button (0-9)</b>.</li> <li>To clear a preset, press and hold <b>RESET</b>, then press a <b>Number button (0-9)</b>.</li> </ul>
5. EV +/-	<ul style="list-style-type: none"> <li>Press to adjust exposure value.</li> <li>Press and hold <b>EV+</b> to turn on RTMP.</li> </ul>

	<ul style="list-style-type: none"> <li>• Press and hold <b>EV-</b> to turn off RTMP.</li> </ul>
6. PAN-TILT CONTROL	Pan and tilt direction control.
7. AF	Turn on Auto Focus.
8. ZOOM SLOW	Zoom in or out slowly.
9. AUTO TRACKING	Turn Auto Tracking on or off.
10. FRAME PRESENTER	<ul style="list-style-type: none"> <li>• UPPER BODY: Frame presenter's upper body.</li> <li>• FULL BODY: Frame presenter's full body.</li> <li>• SWITCH: Switch presenter.</li> </ul>
11. MENU	Open or close the OSD menu during HDMI output.
12. ENTER	<ul style="list-style-type: none"> <li>• Confirm a selection in the OSD menu.</li> <li>• Press to One Push Focus (auto focus once).</li> </ul>
13. NEAR / FAR / MANUAL FOCUS	Press <b>NEAR</b> or <b>FAR</b> to adjust focus manually. Or press <b>MANUAL FOCUS</b> , if available, to turn on Manual Focus first, then press <b>NEAR</b> or <b>FAR</b> to adjust focus manually.
14. ZOOM FAST	Zoom in or out fast.
15. PAN-TILT SPEED	Adjust pan-tilt speed.
16. TRACKING POINT	Load tracking point (Preset 1).
17. WDR	Turn Wide Dynamic Range on or off.
18. BLC	Turn Backlight Compensation on or off.
19. PT RESET	Reset the pan-tilt position to center.
20. L/R SET	<ul style="list-style-type: none"> <li>• To invert L/R pan direction, press and hold <b>L/R SET</b>, then press <b>Number button 2</b>.</li> <li>• To reset L/R pan direction, press and hold <b>L/R SET</b>, then press <b>Number button 1</b>.</li> </ul>
21. FREEZE	Freeze or unfreeze the live view.

# Device Connection

## PoE Connection

Connect the camera to the router or switch through the PoE+ port.

**[Note]** Only support IEEE 802.3AT PoE+ standard.

## RS-232 Connection

Connect through the RS-232 or RS-422 for camera control.

- **RS-232**

T-568B Cable

# Audio Input Connection

Connect an audio device to receive audio.

Line input level: 1Vrms (max.).

Mic input level: 50mVrms (max.); Supplied voltage: 2.5V.

## Video Output Connection

- **HDMI**

Connect to a monitor or TV using an HDMI cable.

- **3G-SDI**

Connect to a 3G-SDI monitor.

**Note:**

- HDMI and 3G-SDI monitors can be connected to camera and output live video simultaneously. When the HDMI monitor is well connected before the camera is turned on, the OSD menu will be displayed on HDMI monitor as default.
- The model name with "H" do not have 3G-SDI.

# Installation

## Mounting Measurements

- Motion tracking

- Voice tracking with third-party microphones

Optical zoom	Distance from subject	Height	Can be inverted
12X	1.6-12 m	1.8-3 m	Yes
21X	2.0-20 m	1.8-3.5 m	Yes
30X	1.8-30 m	1.8-3.8 m	Yes

## Cable Fixing Plate Installation

1. Secure the cable fixing plate to the camera with the included M2 x 4 mm screws (x3).
2. Connect the cables.
3. Use the cable ties to secure the cables to the cable fixing plate.

# Ceiling Mount Installation

1. Secure the mount bracket on the ceiling.  
Screw: 4 screws, M4 x 10mm (not Included)

2. Install the mount bracket on the camera.  
Screw: 2 screws, 1/4"-20 L=6.5mm (included)

3. Slide the mount bracket with the camera into the mount bracket which secured on the ceiling. And connect the cables.

4. Secure the camera with screws.  
Screw: 3 screws, M3 x 6mm (included)

# Set Up the Camera

## OSD Menu

You can use the supplied Remote Control to operate the OSD Menu during HDMI output. Press the **MENU** button to call out the On-Screen Display (OSD) menu and use the **▲**, **▼**, **◀**, **▶** and **↩** buttons to operate the OSD menu.

## IP Address Setup

### Static IP

1. Press the **MENU** button on the remote control to call out the OSD menu.
2. Go to **Network > Static IP**.  
**[Notes]** Turn the DHCP off before setting up static IP (**Network > DHCP > Off**).
3. Select the **IP Address**, **Gateway**, **Netmask** and **DNS** to configure. Press **↩** and use **◀**, **▶** and Number Pad to enter the data.

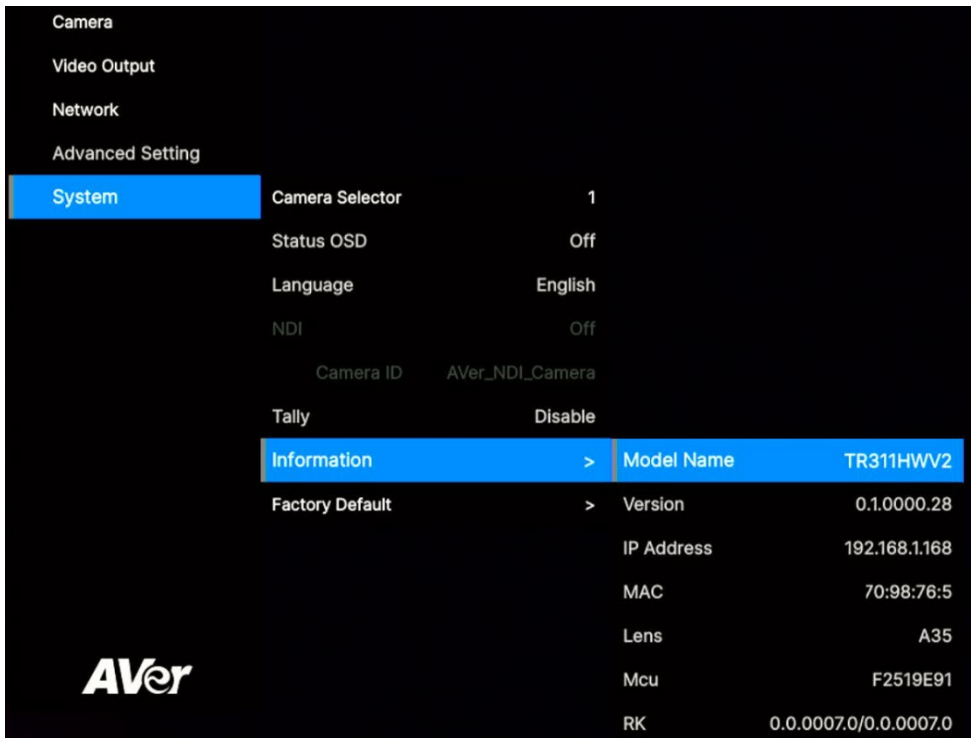

## DHCP

1. Press the **MENU** button on the remote control to call out the OSD menu.
2. Go to **Network > DHCP > On**.

3. After turning the DHCP on, the user can view IP address in **System > Information**.

### To access the web interface:

1. Download IPCam Utility from AVer Download Center (<https://www.aver.com/download-center>) and launch the software.
2. Click **Search** to see available devices on the same local area network (LAN).

#### Note:

- Make sure your camera has internet.
- IPCam Utility and camera must be on the same LAN.

3. Double-click on your camera's IP address in the **IPv4 Address** column to open the web interface in your browser.

### When you log in for the first time:

Change the username and password before logging in to the web interface.

- Username: Use 1-32 characters.
- Password: Use 8-32 characters and a combination of uppercase letters, lowercase letters, numbers, and symbols (%+=, -\_ ^/ @. ~). The password cannot be the same as the username.

### To change your network to DHCP or static IP:

1. Select the checkbox of your camera.
2. Enter the changed username and password in the **Login** field.
3. Select **DHCP** or **Static IP**, then enter your network settings if applicable in the **Settings** section.
4. Click **Apply**.

# AVer PTZ Management

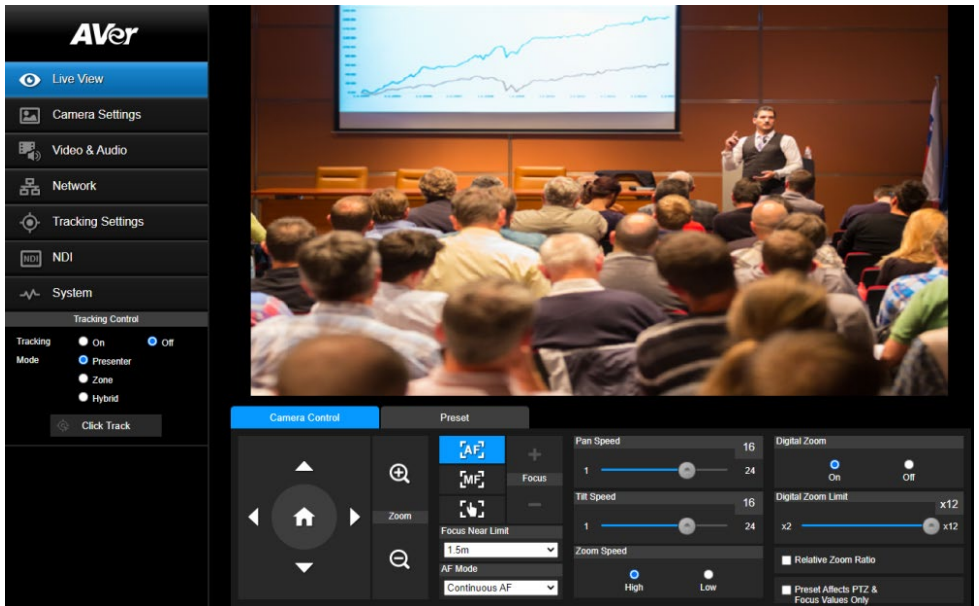

**Note:** The PTZ Management's default username and password is **admin/admin**.

## To access the web interface:

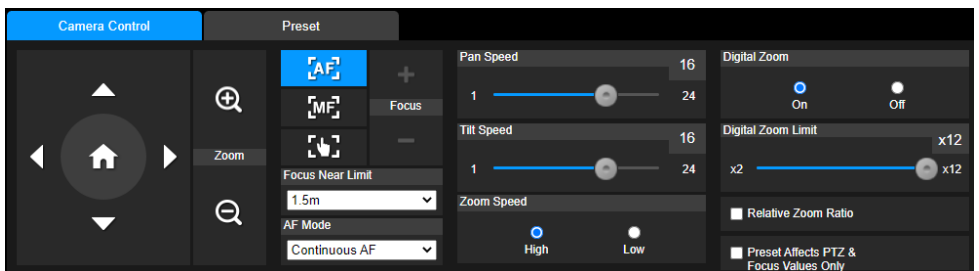

1. Download PTZ Management from AVer Download Center (<https://www.aver.com/download-center>) and launch the software.
2. Log in with the PTZ Management's default username and password **admin/admin**.
3. Go to **Setup > Add**, then click **Auto Search** to see available devices on the same local area network (LAN).
4. Click to select your camera, enter the changed camera username and password, then click **Save** to add the camera to the device list.
5. Select the checkbox of your camera, then click **Go to Web** button to open the web interface in your browser.

# Web Interface

## Live View

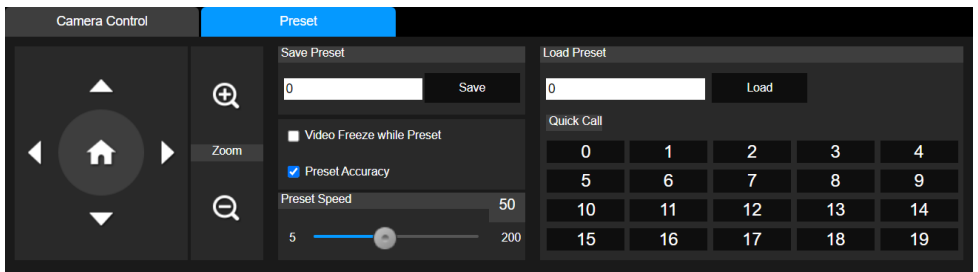

## Camera Control

Item	Description
Pan and Tilt Controls	Position the camera. Drag the slider to adjust <b>Pan Speed</b> and <b>Tilt Speed</b> .
Home Position 	Move the camera to the Home position.
Zoom  	Zoom in or zoom out the live view and select <b>Zoom Speed</b> .

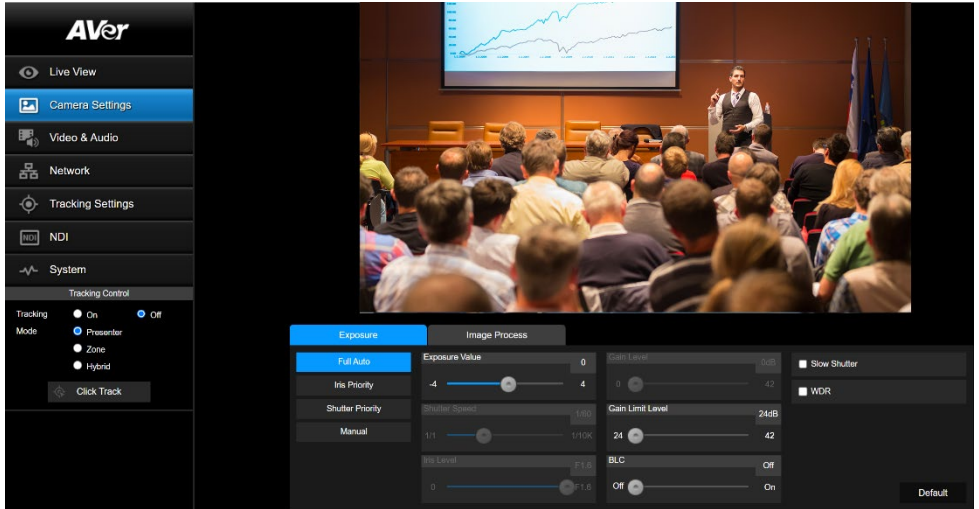

Auto Focus 	Select <b>Auto Focus</b> and then choose an <b>AF mode</b> : <ul style="list-style-type: none"> <li>● <b>AF Trigger after PTZ</b>: Automatically focus after each pan, tilt or zoom.</li> <li>● <b>Continuous AF</b>: Automatically focus continuously.</li> </ul>
Manual Focus 	Click to manually focus. Adjust the focus with + - buttons.
One Push Focus 	Click to automatically focus once.
Focus Near Limit	Set up the nearest focus limit.
Digital Zoom	Turn digital zoom on or off.
Digital Zoom Limit	Adjust the digital zoom.
Relative Zoom Ratio	Select to automatically adjust pan and tilt speeds based on the zoom ratio.
Preset Affects PTZ & Focus Values Only	A preset typically includes pan, tilt, zoom, focus, and 3A (autofocus, autoexposure, auto white balance) values. Select to save only pan, tilt, zoom and focus values for presets.

## Preset

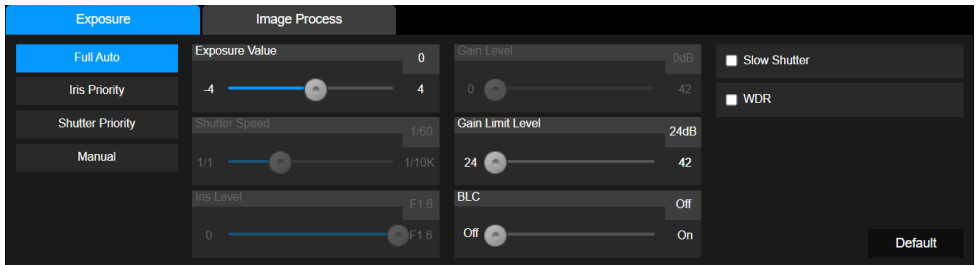

Item	Description
Save Preset	<ol style="list-style-type: none"> <li>1. Position the camera using pan, tilt and zoom controls.</li> <li>2. Enter a preset number (0–255) in the <b>Save Preset</b> field and click <b>Save</b>.</li> </ol>
Load Preset	<ol style="list-style-type: none"> <li>1. Enter a preset number (0–255) in the <b>Load Preset</b> field and click <b>Load</b>.</li> <li>2. Or click a preset number (0–19) in the <b>Quick Call</b> section.</li> </ol>
Video Freeze while Preset	Select to display only the live view from presets. The live view from the moving path will not be displayed.
Preset Accuracy	Select to improve the accuracy of moving to presets.
Preset Speed	Adjust the camera speed when moving to presets.

# Camera Settings

## Exposure

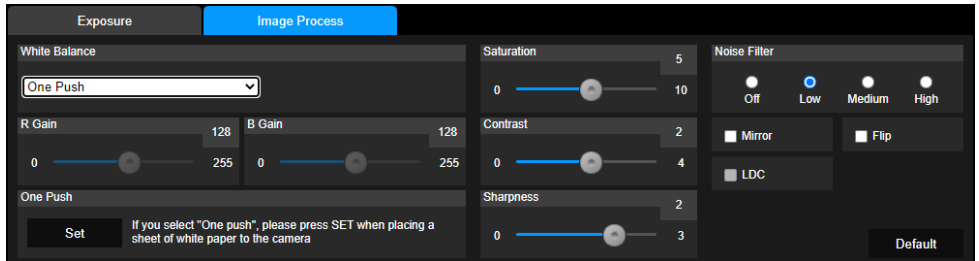

**Note:** Click **Default** to reset Exposure to factory default settings.

Item	Description
Exposure Mode	Choose an exposure mode.
Exposure Value	Adjust exposure, shutter, iris and gain.
Shutter Speed	
Iris Level	
Gain Level	
Gain Limit Level	Turn backlight compensation (BLC), slow shutter, wide dynamic
BLC	

Slow Shutter	range (WDR) on or off.
WDR	

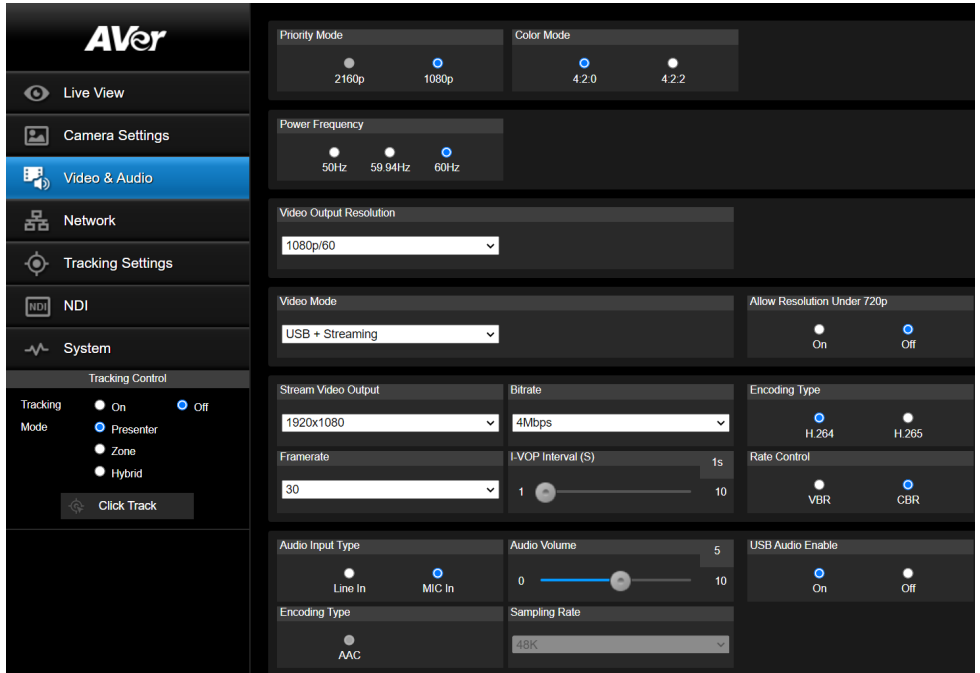

## Image Process

**Note:** Click **Default** to reset Image Process to factory default settings.

Item	Description
White Balance	Choose a white balance mode <ul style="list-style-type: none"> <li>In <b>Manual</b> mode, you can also adjust the <b>R Gain</b> and <b>B Gain</b>.</li> <li>In <b>One Push</b> mode, place a piece of white paper in front of the camera lens and click <b>Set</b> to calibrate white balance.</li> </ul>
Saturation	Adjust saturation, contrast and sharpness.
Contrast	
Sharpness	
Noise Filter	Select a noise filtering level.
Mirror	Select the checkbox to flip the image horizontally.
Flip	Select the checkbox to flip the image vertically.
LDC (Optical zoom 21X, 30X models only)	Select the checkbox to turn on lens distortion correction.

# Video & Audio

Item	Description
Priority Mode	Select 2160p or 1080p. <ul style="list-style-type: none"> <li>2160p is available for 4K models only, unavailable for TR311HWV2, PTC310HWV2.</li> </ul>
Color Mode	Select a color mode for video. <ul style="list-style-type: none"> <li>4:2:0: Recommended for 3G-SDI.</li> <li>4:2:2: Recommended for HDMI.</li> </ul>
Power Frequency	Select <b>50Hz</b> , <b>59.94Hz</b> or <b>60Hz</b> based on your country and region.
Video Output Resolution	Select a resolution for video output.
Video Mode	Select a video mode according to the output interface you use. <ul style="list-style-type: none"> <li>If you don't see NDI mode, you may need to activate an NDI license.</li> </ul>
Allow Resolution Under 720p	Select <b>On</b> to allow transferring lower resolution video streaming when working with some video conference software such as Teams. It's recommended to select <b>Off</b> if you want to keep better image quality during video call.
Stream Video Output	Select a stream resolution for live view.
Bitrate	Select a bit rate.

# Tracking Settings

## Tracking Modes Overview

For details on settings, please refer to their respective chapters.

### Presenter

Frames and follows the presenter on screen.

### Zone

Frames and follows the presenter on screen using up to four presets. When the presenter exits the previous preset, the camera will follow and move to the next preset.

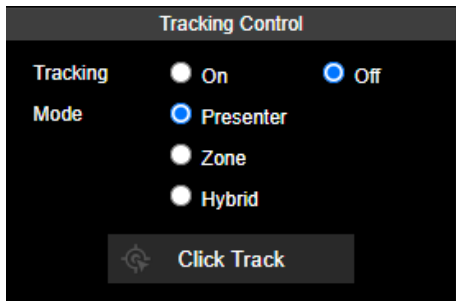

### Hybrid

Hybrid Mode combines Presenter Mode and Zone Mode.

Uses presets when the presenter is inside of presets, frames and follows the presenter when they are outside of presets.

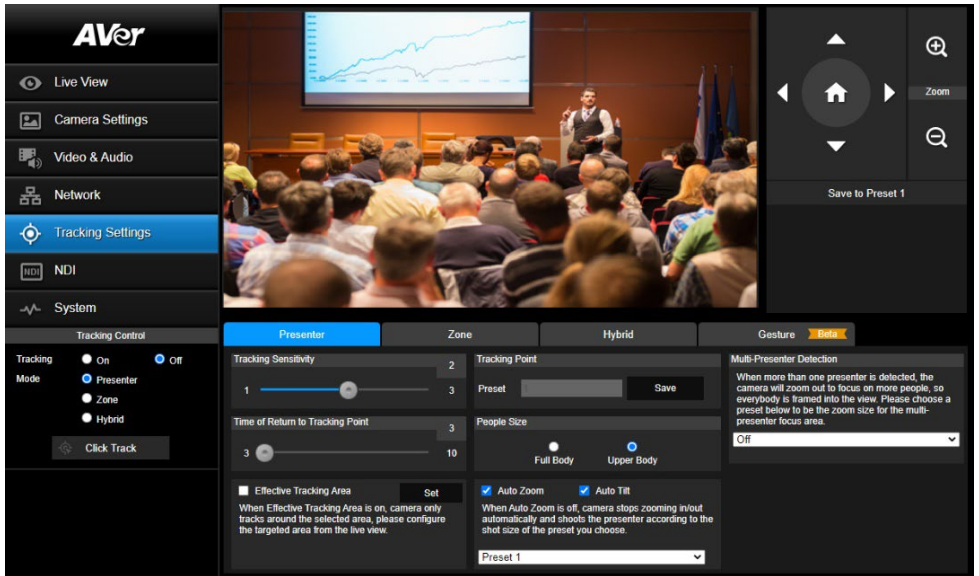

## Tracking Control Panel

- **Tracking:** Turn tracking on or off.
- **Mode:** Select a tracking mode to frame and follow the presenter in real time as they move. For details on tracking settings, please refer to respective chapters.
- **Click Track:** Presenter Mode lets you switch the presenter you want to track. Click the **Click Track** button to frame everyone on screen in bounding boxes and click to select the presenter you want to track. Selected presenter will be in a red frame.

# Presenter Mode

Presenter Mode frames and follows the presenter on screen, and returns to the tracking point (Preset 1) when no one is on screen.

## To set up Presenter Mode:

1. Go to **Tracking Settings > Presenter**.
2. Use pan, tilt and zoom controls to position your camera and click **Save to Preset 1** to save the **Tracking Point**.
3. Configure additional settings:

Item	Description
Tracking Sensitivity	Drag the slider to adjust tracking sensitivity.
Time of Return to Tracking Point	Drag the slider to set an idle time (second) before the camera return to the tracking point.
Effective Tracking Area	Define an effective tracking area. The camera only tracks the presenter inside that area. <ol style="list-style-type: none"> <li>1. Select the checkbox and click <b>Set</b>.</li> <li>2. Drag the upper-left or the lower-right corner of the red square to adjust the size of the tracking area.</li> </ol>
Tracking Point	If no one is on screen, the camera will return to the tracking point (Preset 1).

People Size	Frame the presenter's full body or upper body.
Auto Zoom	<ul style="list-style-type: none"> <li>When <b>Auto Zoom</b> is turned off, the zoom ratio will be based on your selected preset from the drop-down list.</li> <li>When <b>Auto Tilt</b> is turned off, the tilt angle will be based on your selected preset from the drop-down list.</li> </ul>
Auto Tilt	
Multi-Presenter Detection	<p>When multiple presenters are detected, the camera will go to your selected Multi-Presenter Detection preset and frame entire group on screen.</p> <ol style="list-style-type: none"> <li>Go to <b>Tracking Settings &gt; Presenter</b>.</li> <li>Make sure <b>Auto Zoom</b> is turned on.</li> <li>Select a preset from the <b>Multi-Presenter Detection</b> drop-down list to turn on Multi-Presenter Detection.</li> </ol> <p><b>Note:</b></p> <ul style="list-style-type: none"> <li>Make sure you have defined the required preset.</li> <li>The preset should cover a wide area where multiple presenters may appear.</li> </ul>

- Turn on **Tracking** and select **Presenter Mode** on the **Tracking Control** panel.

**Note:** Presenter Mode lets you switch the presenter you want to track. Click the **Click Track** button to frame everyone on screen in bounding boxes and click to select the presenter you want to track. Selected presenter will be in a red frame.

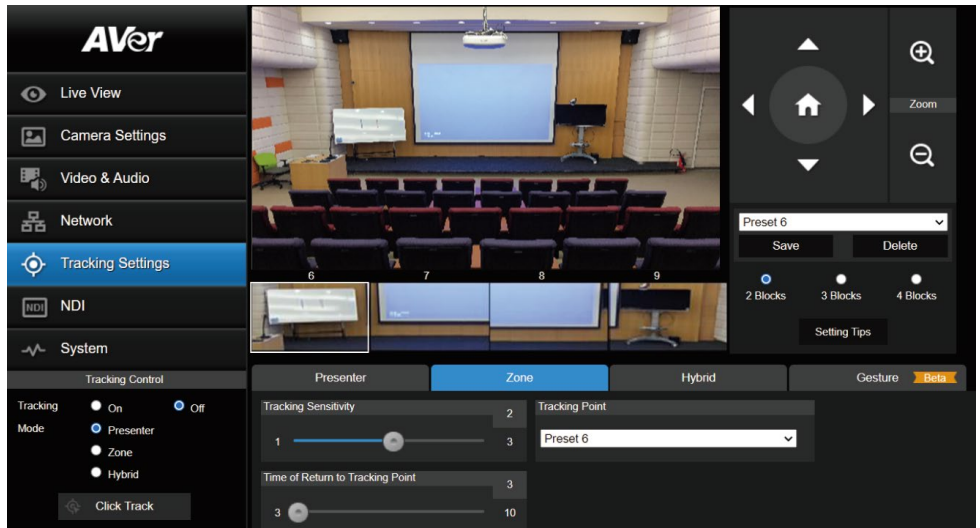

### To set up Presenter Mode with the remote control:

1. Use directional buttons to position your camera. Press and hold **Preset**, then press **Number button 1** to save the tracking point (Preset 1).
2. Press **Auto Tracking ON** to turn on Presenter Mode.
3. Press **Upper Body** or **Full body**.
4. To switch presenters, press **Switch**. With each press, cycle through presenters clockwise, starting from the center.

## Zone Mode

Zone Mode uses up to 4 presets to frame and follow the presenter on screen. When the presenter exits the previous preset, the camera will follow and move to the next preset.

When no one is in the presets, the camera returns to the tracking point (Preset 6 or selected preset).

**Note:** Zone Mode detects any faces or human silhouettes entering the presets. Beside the presenter, make sure there are no other faces or human silhouettes on a poster in the presets to avoid interference.

### To set up Zone Mode:

1. Go to **Tracking Settings > Zone**.
2. Select the number of **Blocks** (presets) you want to track.
3. Select the presets you want to save from the drop-down list. Presets 6–9 are available.

2 Blocks	3 Blocks	4 Blocks
Preset 6, 7	Preset 6, 7, 8	Preset 6, 7, 8, 9

- Use pan, tilt and zoom controls to position your camera and click **Save** to save that position. A thumbnail will appear in the preview. Repeat these steps for all presets.

**Note:** Define overlapping presets from left to right for a smooth transition. When the presenter exits the previous preset, the camera will follow and move to the next preset.

- Configure additional settings:

Item	Description
Tracking Sensitivity	Drag the slider to adjust tracking sensitivity.
Time of Return to Tracking Point	Drag the slider to set an idle time (second) before the camera return to the tracking point.
Tracking Point	<p>If no one is in the presets, the camera will return to the tracking point (Preset 6 or selected preset).</p> <div data-bbox="445 906 980 1034" style="background-color: #333; color: #fff; padding: 5px;"> <p>Tracking Point</p> <p>Preset 6 ▾</p> </div>

- Turn on **Tracking** and select **Zone Mode** on the **Tracking Control** panel.

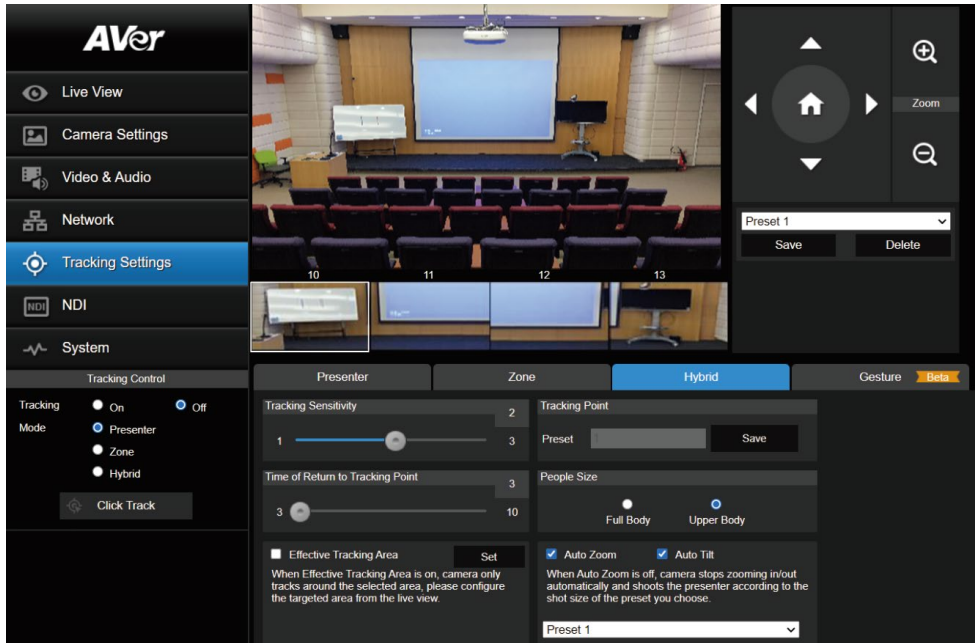

**To set up Zone Mode with the remote control:**

1. Use directional buttons to position your camera. Press and hold **Preset**, then press **Number button 6** to save Preset 6. Repeat these steps for Preset 7.

**Note:** Zone Mode has 2 blocks by default. To select more blocks, access the web interface.

2. Press **Auto Tracking ON** to turn on Presenter Mode
3. Then press and hold **Tracking Point** to switch tracking mode from Presenter Mode to Zone Mode.

## Hybrid Mode

Hybrid Mode combines Presenter Mode and Zone Mode.

Uses presets when the presenter is inside of presets, frames and follows the presenter when they are outside of presets.

When no one is on screen, the camera returns to the tracking point (Preset 1).

### To set up Hybrid Mode:

1. Go to **Tracking Settings > Hybrid**.
2. Use pan, tilt and zoom controls to position your camera and click **Save to Preset 1** to save the **Tracking Point**.
3. Then, select the presets you want to save from the drop-down list. Presets 10–13 are available.

4. Use pan, tilt and zoom controls to position your camera and click **Save** to save that position. A thumbnail will appear in the preview. Repeat these steps for all presets.

**Note:** Do not overlap presets. Leave ample room between presets for a smooth transition.

5. Configure additional settings:

Item	Description
Tracking Sensitivity	Drag the slider to adjust tracking sensitivity.
Time of Return to Tracking Point	Drag the slider to set an idle time (second) before the camera returns to the tracking point.
Effective Tracking Area	Define an effective tracking area. Only presenters inside the area will be tracked. <ol style="list-style-type: none"> <li>Select the checkbox and click <b>Set</b>.</li> <li>Drag the upper-left or the lower-right corner of the red frame to adjust the size of the tracking area.</li> </ol>
Tracking Point	If no one is on screen, the camera will return to the tracking point (Preset 1).
People Size	Frame the presenter's full body or upper body.
Auto Zoom	<ul style="list-style-type: none"> <li>When <b>Auto Zoom</b> is turned off, the zoom ratio will be based on your selected preset from the drop-down list.</li> <li>When <b>Auto Tilt</b> is turned off, the tilt angle will be based on your selected preset from the drop-down list.</li> </ul>
Auto Tilt	<div style="background-color: #333; color: #fff; padding: 10px;"> <input checked="" type="checkbox"/> Auto Zoom      <input checked="" type="checkbox"/> Auto Tilt            When Auto Zoom is off, camera stops zooming in/out automatically and shoots the presenter according to the shot size of the preset you choose.  <div style="border: 1px solid #ccc; padding: 5px; margin-top: 5px;">             Preset 1 <span style="float: right;">▼</span> </div> </div>

6. Turn on **Tracking** and select **Hyrbid Mode** on the **Tracking Control** panel.

**Note:** Presenter Mode lets you switch the presenter you want to track. Click the **Click Track** button to frame everyone on screen in bounding boxes and click to select the presenter you want to track. Selected presenter will be in a red frame.

# Gesture

Control your camera with hand gestures during HDMI output.

The screenshot shows the camera's control interface with the following sections:

- Mode Selection:** Presenter, Zone, Hybrid, and **Gesture Beta** (highlighted).
- Gesture Control Panel:**
  - Tracking+PTZ:** A dropdown menu.
  - When Auto Tracking off:** A note stating "When Auto Tracking off, camera automatically returns to the preset you choose." and a dropdown menu set to "Off".
- Gesture Instructions:**
  - Auto Tracking enable / Switch Presenter:** Raise your hand beside your face (with an open hand) for more than 3 seconds to activate the AutoTracking. Instruct camera to track the person that holds up hand beside his/her face (only enabled when Auto Tracking is on).
  - Auto Tracking disable/Zoom out:** Make a fist beside your face to disable Auto Tracking while it's on, otherwise, perform zoom out.
  - Zoom in:** Position two fingers next to the area you wish to zoom in, and as the camera initiates the zooming process, lower your hand to cease the zoom.
  - Upper/Full body Switch:** Shows four fingers beside your face to switch upper or full body size.
  - Pan/Tilt:** Shows five fingers beside your shoulder and move camera to desired position. Make a fist to stop camera movement.
- Distance Note:** The effective recognized distance of gesture control is 15ft at 1X zoom ratio.

## Note:

- The effective distance is 15 feet at 1X zoom ratio.
- When a gesture is recognized, the LED indicator will flash purple.

## To use gesture control:

1. Select an option from the **Gesture Control** drop-down list:
  - **Off:** Turn off gesture control.
  - **Tracking:** Gesture control is available in tracking modes.
  - **PTZ:** Gesture control is available in PTZ mode.
  - **Tracking + PTZ:** Gesture control is available in all tracking and PTZ modes.
2. You can also select a preset from the bottom drop-down list for the camera to return to when auto tracking is turned off.

# NDI

**Note:** NDI is available for model names with N only.

The screenshot shows the AVer software interface with the NDI settings menu open. The 'NDI' option is selected in the left-hand navigation menu. The settings are as follows:

- Local Device Name:** (Empty text field)
- Device Channel (Camera ID):** AVer\_NDI\_Camera
- Receive Group:** Public
- Reliable UDP:**
- Discovery Server:**
- Discovery Server Address:** 192.168.1.10
- Multicast Server:**
- Multicast Server Mask:** 255.255.255.0
- Multicast Server Address:** 239.255.0.0
- Multicast TTL:** 10

Buttons for 'Confirm' and 'Cancel' are located at the bottom right of the settings panel.

Item	Description
NDI Activate Function	Click to enter your NDI license key. To purchase NDI HX upgrade, please visit NewTek Online Store ( <a href="https://store.newtek.com/ndi-hx-upgrade-for-cameras.html#">https://store.newtek.com/ndi-hx-upgrade-for-cameras.html#</a> )
Local Device Name	Enter a name that identifies your camera group on the NDI software. <ul style="list-style-type: none"> <li>The default is AVer_NDI_Camera.</li> </ul>
Device Channel (Camera ID)	Enter a name that identifies your camera on the NDI software. <ul style="list-style-type: none"> <li>The default is a blank space.</li> <li>A name must have no more than 10 characters. Use number, upper and lower case letter, or special character (! @ % ^ , . / : + ? [ ] { } - _ ~).</li> </ul>
Receive Group	Enter a name for a receive group. <ul style="list-style-type: none"> <li>All devices in the receive group receive the same NDI streams.</li> <li>The receive group should remain <b>public</b>. If this is changed, you will need to join the group through NDI® Access Manager.</li> </ul>

Reliable UDP	Select the checkbox to enable Reliable User Datagram Protocol (RUDP).
Discovery Server	Select the checkbox to enable discovery server to allow devices to discover and connect to each other on a network automatically.
Discovery Server Address	Enter the IP address of a server running a discovery server application.
Multicast Server	Select the checkbox to enable multicast server to allow efficient distribution of NDI streams to multiple receivers without overwhelming the network.
Multicast Server Mask	Enter the network mask to specify the range of IP addresses that are eligible to receive NDI streams.
Multicast Server Address	Enter the IP address of a group of recipients that receive NDI streams from a multicast server.
Multicast TTL	Enter a multicast time to live (TTL) value between 1-255 to control the distance multicast packets can travel.

# System

Item	Description
Upgrade firmware	<p>To upgrade the firmware:</p> <ol style="list-style-type: none"> <li>1. Download the newest firmware from <a href="https://www.aver.com/Downloads/search?q=PTC320UV2">https://www.aver.com/Downloads/search?q=PTC320UV2</a></li> <li>2. On the Web page, go to <b>System &gt; Upgrade firmware</b>.</li> <li>3. Click <b>Choose File</b> to select the firmware.</li> <li>4. Click <b>Upgrade</b> to start upgrading the firmware.</li> <li>5. Refresh the browser after the upgrade process is complete.</li> </ol> <p><b>Note:</b> Keep your camera connected to a power source during firmware upgrade. Network connection will be lost during the process and camera will reboot automatically after upgrading.</p>
Factory Default	Reset the camera to factory default settings.
Login	<p>For first-time login, you'll be prompted to change the username and password:</p> <ul style="list-style-type: none"> <li>• Username: Use 1-32 characters.</li> <li>• Password: Use 8-32 characters and a combination of uppercase letters, lowercase letters, numbers, and symbols</li> </ul>

	(%+ =, - ^/ @. ~). The password cannot be the same as the username.
Language	Change the web interface language.
Reboot	Restart your camera.
Export Log	Export system log.
Power Schedule	Schedule specific times for the camera to reboot or shut down.
Set Date/Time	Set the camera date and time.
Syslog	Turn on to receive technical supports. Enter the <b>IP Address</b> and <b>Port</b> of the receiving device for debug and problem analysis.
Status OSD	Turn on to display preset and zoom ratio on HDMI output.
Setting	Import or export your camera settings
Status Live View	Turn the camera live view on or off.
VISCA Customized Function	Set VISCA customized functions and click <b>OK</b> .
Power Up to Preset	Select a pre-configured preset position from the drop-down list, the camera will move to the preset position when powered up.
Power Off to Preset	Select a pre-configured preset position from the drop-down list, the camera will move to the preset position when powered off.
Power Off Completely	Select a power setting for your camera: <ul style="list-style-type: none"> <li>• <b>On</b>: Shuts down.</li> <li>• <b>Off</b>: Enters Standby mode.</li> </ul>
Sleep to Preset	When no video is transmitted over USB, set up <b>Sleep to Preset</b> and <b>Sleep Timer</b> to move the camera to a defined preset after a period of time for enhanced privacy. <ul style="list-style-type: none"> <li>• To enable: <ol style="list-style-type: none"> <li>1. Make sure the preset has been defined.</li> <li>2. Go to <b>Video &amp; Audio &gt; Theme Mode</b> &gt; choose <b>USB Only</b>.</li> <li>3. Go to <b>Systems &gt; Sleep to Preset</b> &gt; choose a preset.</li> <li>4. Go to <b>Systems &gt; Sleep Timer</b> &gt; select a duration.</li> </ol> </li> <li>• To disable, choose <b>Off</b> from the <b>Sleep to Preset</b> drop-down list or select <b>Off</b> in <b>Sleep Timer</b>.</li> </ul>
Sleep Timer	
Turn on Auto Tracking when using USB Video	Select to turn on auto tracking when streaming over USB. Make sure you have selected <b>USB only</b> in <b>Video Mode</b> .
Help Improving AVer Camera	Opt-in or opt-out of providing anonymous usage data.
